This Product Disclosure Statement (**PDS**) is a summary of significant information about the Macquarie International Infrastructure Securities Fund (Unhedged) (**Fund**). It contains a number of references to additional important information contained in a separate information booklet (**Information Booklet**). This information forms part of the PDS and you should read the Information Booklet together with this PDS before making a decision to invest in the Fund. The information in this PDS and the Information Booklet may change from time to time. Where information that changes is not materially adverse to investors, we may update this information by updating the relevant document or by publishing an update at [macquarie.com.au/pds](http://macquarie.com.au/pds). You can access a copy of the latest version of this PDS, the Information Booklet and any updated information free of charge from our website or by contacting us.

The information provided in the PDS and the Information Booklet is general information only and does not take account of your personal financial situation or needs. You should obtain your own financial advice tailored to your personal circumstances.

This offer is only open to persons receiving this PDS and the Information Booklet within Australia and New Zealand or any other jurisdiction approved by us.

Other than Macquarie Bank Limited (**MBL**), none of the entities noted in this document are authorised deposit-taking institutions for the purposes of the Banking Act 1959 (Commonwealth of Australia). The obligations of these entities do not represent deposits or other liabilities of MBL. MBL does not guarantee or otherwise provide assurance in respect of the obligations of these entities, unless noted otherwise. Unless otherwise stated, all references to 'dollars' or '\$' herein refer to Australian dollars.

#### Warning statement for New Zealand investors

- a) The offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 and Regulations. In New Zealand, this is Part 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.
- b) The offer and the content of the PDS and Information Booklet are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 and regulations made under that Act set out how the offer must be made.
- c) There are differences in how securities are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.
- d) The rights, remedies and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies and compensation arrangements for New Zealand financial products.
- e) Both the Australian and New Zealand securities regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.
- f) The taxation treatment of Australian financial products is not the same as for New Zealand financial products.
- g) If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.
- h) The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.
- i) If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.\*
- j) The dispute resolution process described in the Information Booklet is only available in Australia and is not available in New Zealand.

\* Redemptions and distributions of income will only be paid in Australian dollars to an Australian bank account.

## 1 About Macquarie Investment Management Australia Limited

Macquarie Investment Management Australia Limited (**Macquarie, we, us, our**) is the responsible entity of the Fund. We are responsible for the investment decisions, management and administration of the Fund. We may delegate some of these duties to third parties. We have appointed Macquarie Investment Management Global Limited (ABN 90 086 159 060 AFSL 237843) (**Investment Manager**) as investment manager of the Fund. Both entities form part of Macquarie Group's securities investment management business, Macquarie Investment Management.

Macquarie Investment Management delivers a full-service offering across a range of asset classes including fixed interest, listed equities (domestic and international) and infrastructure securities to both institutional and retail clients in Australia and the US, with selective offerings in other regions. As at 30 September 2016, Macquarie Investment Management had \$351 billion of assets under management with presence in Australia, Asia, Europe and the US.

## 2 How the Macquarie International Infrastructure Securities Fund (Unhedged) works

The Fund is a unit trust registered under the Corporations Act 2001 (Cth) (**Corporations Act**) as a managed investment scheme. Each investor's investment amount is pooled and invested in the manner described in Section 5.

Investors acquire units in the Fund. A unit gives an investor a beneficial interest in the Fund's assets as a whole, but not an entitlement to, or interest in, any particular asset of the Fund.

The terms of the units, including an investor's rights and obligations, are set out in this PDS, the Information Booklet and the Fund's constitution (which we can provide to you on request). The constitution can be amended in certain circumstances. We can amend the constitution without your consent if we reasonably consider that the amendments will not adversely affect investors' rights. Otherwise, we must obtain the approval of the required number of unitholders at a meeting of unitholders (a resolution may bind you, regardless of how or whether you vote).

A reference in this PDS to '**Business Day**' means a day (other than a Saturday, Sunday, public holiday or bank holiday) on which banks are open for general banking business in Sydney.

### Unit pricing

The value of a unit will generally be calculated each Business Day, and will be based on the value of the Fund's assets, less liabilities, divided by the number of units on issue. The price of units will vary as the market value of the Fund's assets and liabilities rises or falls.

Application and redemption prices take into account our estimate of transaction costs (the buy/sell spread). The application price and redemption price will differ to the value of a unit as a result of the buy/sell spread. See Section 6 for further details on the buy/sell spread.

### How to invest and access your money

#### Making initial and additional investments in the Fund

Application cut-off time (Application Cut-off) <sup>1</sup>	Minimum initial investment <sup>1</sup>	Minimum additional investment <sup>1</sup>
2.00pm Sydney time on a Business Day	\$20,000	\$500

<sup>1</sup> Or as we determine otherwise.

You can apply to make an initial investment in the Fund by completing the application form accompanying this PDS (**Application Form**). Unless we agree otherwise, where we receive an Application Form (including the required identification documentation) completed to our satisfaction, and cleared funds before the Application Cut-off, investors will generally receive the application price calculated as at the close of business on that day. Unless we agree otherwise, if we receive an Application Form (including the required identification documentation) completed to our satisfaction, and cleared funds on a Business Day but after the Application Cut-off, or on a non-Business Day, we will generally treat the application as having been received before the Application Cut-off on the next Business Day.

You can add to your investment at any time by depositing cleared funds using the account details provided to you at the time of your initial investment (**Investment Account**). Deposits into the Investment Account will be deemed to be an application for additional units in the Fund. We will not be responsible for any losses incurred by you as a result of the incorrect payment of funds into the Investment Account or into an incorrect bank account.

We may accept or reject an application (in whole or in part) at our discretion (without giving reasons).

See Section 8 for more details on how to apply.

#### Redeeming your investment

Redemption cut-off time (Redemption Cut-off) <sup>1</sup>	Minimum balance amount <sup>1,2</sup>
12.00pm Sydney time on a Business Day	\$10,000

<sup>1</sup> Or as we determine otherwise.

<sup>2</sup> If acceptance of a redemption request will result in a balance of less than the minimum balance amount, we may either reject the redemption request or treat the redemption request as relating to your entire holding.

You can generally request redemption of all or part of your investment in the Fund by writing to us or by completing a redemption request form which you can download at **macquarie.com/redemptionform**. Alternatively, you can provide a signed request specifying the account name, the Fund name, the amount or number of units to be withdrawn and bank details. You can send your redemption request by facsimile, email or mail.

Where we receive a redemption request, completed to our satisfaction, before the Redemption Cut-off, investors will generally receive the redemption price calculated as at the close of business on that day. Unless we agree otherwise, if we receive a redemption request, completed to our satisfaction, on a Business Day but after the Redemption Cut-off, or on a non-Business Day, we will generally treat the request as having been received before the Redemption Cut-off on the next Business Day. Before paying you the redemption amount, we may deduct from that amount any money you owe us in relation to your investment. Redemption proceeds will generally be paid within five Business Days after we accept the redemption request.

### Potential delay of redemptions

In some circumstances, such as where there is a suspension of redemptions, investors may not be able to redeem their investment within the usual period or at all.

It is also important to note that under the terms of the constitution, we:

- may accept or reject a redemption request (in whole or in part) at our discretion (without giving reasons), and
- are able to change the time by which a redemption request must be lodged and/or the days on which redemptions will be available at our discretion.

Where a redemption request is accepted by us, the Fund's constitution generally allows us up to 90 days after acceptance of the request to pay the redemption proceeds. This may be extended if:

- payment of all or part of the redemption amount is not in the interests of unitholders as a whole, is materially adverse to unitholders as a whole, or
- market conditions are such that liquidation of the Fund's assets to facilitate the redemption is difficult, not desirable or impossible (such as where there is restricted liquidity or suspended trading in a market for the assets of the Fund).

### Distributions

The Fund may receive distributions, interest and gains from the underlying investments. We will generally seek to distribute any net income on a quarterly basis and any net realised capital gains at least once a year. Distributions will be calculated based on the net income and net realised capital gains of the Fund. Unit prices may fall as a result of the allocation of the distributions to unitholders, which has the effect of reducing the Fund's net assets.

You may elect, in the Application Form, to have your distributions paid directly into a nominated Australian financial institution account or to have your distributions reinvested as additional units. If you do not make an election on the Application Form, your distributions will be reinvested.

### Indirect investors

Macquarie consents to the use of this PDS and the Information Booklet by investor directed portfolio service (**IDPS**) operators, such as master trusts, wrap accounts or nominee services that include the Fund on their investment menus. An investment in the Fund through an IDPS operator does not entitle you to a direct interest in the Fund and you may be subject to different terms and conditions from those referred to in this PDS and the Information Booklet. Please contact your financial adviser or IDPS operator if you have any queries.

You should read the important information about **how the Fund works** including additional information on how to invest and access your money, unit pricing methodology, potential delay of redemptions and indirect investors before making a decision. Go to Section 2 of the Information Booklet at **macquarie.com.au/pds**. The material relating to how the Fund works may change between the time when you read this statement and the day when you acquire the product.

## 3

## Benefits of investing in the Macquarie International Infrastructure Securities Fund (Unhedged)

### Significant features

- Provides access to a global portfolio of listed infrastructure securities diversified across developed and emerging market countries and across a wide range of infrastructure sectors.
- Actively managed using intensive fundamental research by a large specialist listed infrastructure team which has access to Macquarie Group's infrastructure expertise. Macquarie Group is recognised as a global leader in infrastructure finance and investment with over 20 years experience in the sector.

### Significant benefits

- Potential for regular income distributions and capital growth.
- Potential to reduce risk by diversifying across geographic regions, infrastructure sectors, regulatory regimes and securities.
- Ability to provide diversification in an investor's portfolio
- Access to the investment management expertise of Macquarie Investment Management.

You should read the important information about **additional features and benefits** of the Fund before making a decision. Go to Section 3 of the Information Booklet at **macquarie.com.au/pds**. The material relating to additional features and benefits of the Fund may change between the time when you read this statement and the day when you acquire the product.

## 4 Risks of managed investment schemes

All investments carry risk. Different investments carry different levels of risk, depending on the investment strategy and the underlying investments. Generally, the higher the potential return of an investment, the greater the risk (including the potential for loss and unit price variability over the short term). Financial markets can and have been volatile, and higher levels of market volatility may result in greater risk for investors than an investment in less volatile markets. When you make an investment, you are accepting the risks of that investment. It is important to understand these risks before deciding to invest.

The level of risk that you are willing to accept will depend on a range of factors including your financial objectives, risk tolerance, age, investment timeframe, where other parts of your wealth are invested and whether your investment portfolio will be appropriately diversified after making the investment. The value of your investment and the returns from your investment will vary over time. Future returns may differ from past returns. We do not guarantee the performance or returns of the Fund and you may lose some or all of the money that you have invested in the Fund.

The significant risks of the Fund are described below, but there could be other risks that adversely affect the Fund. You should seek your own professional advice on the appropriateness of this investment for your particular circumstances and financial objectives.

**Investment risk:** The Fund has exposure to share markets. The risk of an investment in the Fund is higher than an investment in a typical bank account or fixed income investment. Amounts distributed to unitholders may fluctuate, as may the Fund's unit price. The unit price may vary by material amounts, even over short periods of time, including during the period between a redemption request being made and the time the redemption unit price is calculated.

**Infrastructure sector risk:** The Fund aims to provide exposure to the global infrastructure sector by investing in infrastructure related securities. The performance of these investments will be correlated to the global infrastructure sector in general, and may be affected by factors such as the availability and cost of finance, the level of usage of infrastructure, the level of supply of infrastructure projects, prevailing interest rates, government regulations as well as general market sentiment towards the sector as a whole.

**Market risk:** Share markets can be volatile, and have the potential to fall by large amounts over short periods of time. The investments of the Fund are likely to have a broad correlation with share markets in general, and hence poor performance or losses in domestic and/or global share markets are likely to negatively impact the overall performance of the Fund.

**Security specific risk:** Securities and the companies that issue them are exposed to a range of factors that affect their individual performance. These factors may cause an investment's return to differ from that of the broader market. The Fund may therefore underperform the market and/or its peers due to its security specific exposures.

**International investments risk:** The Fund invests in a range of international securities, and in companies that have exposure to a range of international economies. Global and country specific macroeconomic factors may impact the Fund's international investments. Governments may intervene in markets, industries and companies; may alter tax and legal regimes; and may act to prevent or limit the repatriation of foreign capital. Such interventions may impact the Fund's international investments.

**Emerging market risk:** The Fund may have exposure to emerging markets. Emerging markets are generally considered riskier than developed markets due to factors such as lower liquidity, the potential for political unrest, the increased likelihood of sovereign intervention (including default and currency intervention), currency volatility, and increased legal risk. Emerging market investments

therefore may experience increased asset price volatility, and face higher currency, default and liquidity risk.

**Liquidity risk:** Investments may be difficult or impossible to sell, either due to factors specific to that security, or to prevailing market conditions. Liquidity risk may mean that an asset is unable to be sold or the Fund's exposure is unable to be rebalanced within a timely period and at a fair price, potentially resulting in delays in redemption processing, or even the suspension of redemptions. If we are required to process a large redemption or application, the exposure of the Fund to particular investments, sectors or asset classes may be altered significantly due to the security sales or purchases required.

**Income securities risk:** The Fund may have exposure to hybrid or debt securities issued by infrastructure companies. The value of these securities may fall, for example due to market volatility, interest rate movements, perceptions of credit quality, supply and demand pressures, market sentiment, or issuer default. Income security risk may cause unit price volatility and/or financial loss to the Fund.

**Currency risk:** The Fund has exposure to investments denominated in currencies other than Australian dollars. Currency risk is the risk that fluctuations in exchange rates between the Australian dollar and foreign currencies impact the value of the Fund's foreign investments.

**Default risk:** Issuers or entities upon which the Fund's investments depend may default on their obligations, for instance by failing to make a payment due on a security or by failing to return principal. Such parties can include the issuers of securities held by the Fund including warrants, depositary receipts and hybrid securities. Counterparties to the Fund may default on a contractual commitment to the Fund. Counterparties may include over-the-counter derivatives counterparties, brokers (including clearing brokers of exchange traded instruments), foreign exchange counterparties, as well as the Fund's custodian. Default on the part of an issuer or counterparty could result in a financial loss to the Fund.

**Unlisted securities risk:** The Fund may invest in securities which are expected to be, but are not yet listed on a securities exchange. These securities may be difficult to independently value and to sell due to their unlisted nature. When such securities do list (for example through an initial public offering), the listing price may differ materially from the price previously used when calculating the Fund's unit price.

**Derivatives risk:** Derivatives may be used to hedge existing exposures or to gain economic exposure. The use of derivatives may expose the Fund to risks including counterparty default, legal and documentation risk, and the risk of increased sensitivity of the Fund's unit price to underlying market variables. The use of derivatives may have the effect of magnifying both gains and losses.

**Manager risk:** There is no guarantee that the Fund will achieve its performance objectives, produce returns that are positive, or compare favourably against its peers. The Investment Manager may change its investment strategies and internal trading guidelines over time, and there is no guarantee that such changes would produce favourable outcomes.

**Regulatory and legal risk:** Governments or regulators may pass laws, create policy, or implement regulation that affects the Fund and/or the execution of investment strategies. Such initiatives impact either a specific transaction type or market, and may be either country specific or global. Such changes may result in the Fund failing to achieve its investment objectives. Similarly laws affecting registered managed investment schemes (including taxation and corporate and regulatory laws) may change in the future, affecting investors' rights and investment returns.

## 5 How we invest your money

You should consider the likely investment return, the risks involved and your investment timeframe when deciding whether to invest in the Fund.

Macquarie International Infrastructure Securities Fund (Unhedged)					
<b>Fund objective</b>	The Fund aims to outperform the S&P Global Infrastructure Index (Net Total Return in \$A) ( <b>Benchmark</b> ) over the medium to long term (before fees). It aims to provide a return comprising both income and capital growth.				
<b>Description of the Fund</b>	<p>The Fund provides exposure to a diversified portfolio of global infrastructure securities which are listed, or expected to be listed, and are issued by entities that have as their primary focus (in terms of income and/or assets) the management, ownership and/or operation of infrastructure and utilities assets. The Fund may also provide exposure to hybrid or debt securities issued by infrastructure entities.</p> <p>The Investment Manager believes that a systematic fundamentals-based approach to identifying long-term potential value in infrastructure companies will outperform the Benchmark over the medium to long term. The specialist investment team analyses infrastructure companies in depth to determine the quality, reliability and growth potential of the cashflows generated from their infrastructure assets.</p> <p>Exposure to securities issued by vehicles controlled or managed by the Macquarie Group is limited to 5% of the net asset value of the Fund at the time of investment.</p> <p>The Fund may have exposure to derivatives, including derivatives that increase in value when the underlying instrument falls in value, and decrease in value when the underlying instrument rises in value. Derivatives may be used for hedging and active investment purposes.</p>				
<b>Asset allocation<sup>1</sup></b>	Infrastructure securities:	90% – 100%			
	Cash: <sup>2</sup>	0% – 10%			
<b>Benchmark</b>	S&P Global Infrastructure Index (Net Total Return in \$A)				
<b>Suggested minimum investment timeframe</b>	Five years				
<b>Inception date</b>	29 January 2014				
<b>Risk level</b>	Low	Low to medium	Medium	Medium to high	High
	This is our assessment of the potential for loss and unit price variability over the short term. Refer to Section 4 for more information on the risks of an investment in the Fund.				
<b>Target investors</b>	The Fund may be suitable for investors who are looking for an investment with the objective of the Fund listed above and are prepared to accept the risks of the Fund set out in Section 4.				
<b>Changes to the Fund</b>	We may make changes to the Fund from time to time or terminate the Fund. We will provide such notice as required by the Corporations Act or constitution of the Fund.				
<b>Fund performance</b>	Performance history information can be obtained from our website at <a href="http://macquarie.com.au/performance">macquarie.com.au/performance</a> or by calling Client Service. Past performance is not a reliable indicator of future returns, which can differ materially.				

<sup>1</sup> The above ranges are indicative only. The Fund will be rebalanced within a reasonable period of time should the exposure move outside these ranges.

<sup>2</sup> The Fund is expected to be fully invested. A portion of the portfolio may be allocated to cash for liquidity purposes.

You should read the important information about **how the Investment Manager invests your money** including ethical investments, switching and calculating the performance of the Fund before making a decision. Go to Section 5 of the Information Booklet at [macquarie.com.au/pds](http://macquarie.com.au/pds). The material relating to how the Investment Manager invests your money may change between the time when you read this statement and the day when you acquire the product.

## 6 Fees and costs

### Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask Macquarie Investment Management or your financial adviser.

### To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed investment fee calculator to help you check out different fee options.

This table shows fees and other costs that you may be charged. These fees and costs may be deducted from your investment, the returns on your investment or from the Fund's assets as a whole. Information on how managed investment schemes are taxed is set out in Section 7 of this PDS. You should read all of the information about fees and other costs, as it is important to understand their impact on your investment.

Type of fee or cost	Amount
<b>Fees when your money moves in or out of the Fund<sup>1</sup></b>	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Exit fee	Nil
<b>Management costs</b>	
The fees and costs for managing your investment	The management costs consist of: <b>Management fee</b> – 1.00% pa of the net asset value of the Fund. <b>Administrative expenses<sup>2</sup></b> – Estimated at 0.04% pa of net asset value of the Fund.

<sup>1</sup> You may also incur a buy/sell spread when your money moves in or out of the Fund. See 'Buy/Sell spread' under the section, 'Additional explanation of fees and costs' for further details.

<sup>2</sup> Actual administrative expenses may differ from the expense figure provided which is an estimate. Abnormal expenses (if any) and transactions costs will also be paid by the Fund. These costs are not included in the above estimate. See 'Expenses' under the section 'Additional explanation of fees and costs' for further details.

All fees in the table above are shown inclusive of GST, net of Reduced Input Tax Credits. Additional fees and charges may apply. See 'Additional explanation of fees and costs' below for further information.

The information in the table above can be used to compare costs between different simple managed investment schemes. ASIC provides a calculator on its website [www.moneysmart.gov.au](http://www.moneysmart.gov.au). The calculator can be used to calculate the effect of fees and costs on account balances.

### Example of annual fees and costs of the Fund

This table gives an example of how the fees and costs in the Fund can affect your investment over a one-year period. You should use this table to compare the Fund with other simple managed investment products.

The example assumes an account balance of \$50,000 invested in the Fund with no variation in the value of your investment over this period. In practice, the actual fees we charge are generally based on the value of your investment which may vary daily. This example also assumes that the additional \$5,000 contribution occurs at the end of the relevant period (that is, no management fees are incurred in connection with the additional investment amount).

Example	Balance of \$50,000 with a contribution of \$5,000 <sup>1</sup> during the year	
<b>Contribution fees<sup>1</sup></b>	Nil	For every additional \$5,000 you put in, you will not be charged any contribution fee.
<b>PLUS Management costs comprising:</b>	<b>1.036% pa<sup>2</sup></b>	<b>And</b> , for every \$50,000 you have in the Fund, you will be charged <b>\$518</b> each year, comprising:
Management fee	1.00% pa	\$500
Administrative expenses	0.036% pa	\$18
<b>EQUALS</b> cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of <b>\$518<sup>3</sup></b> <b>What it costs you will depend on the fees you may be able to negotiate.</b>

**Notes to example from previous page**

- <sup>1</sup> You may also incur a buy/sell spread when your money moves in or out of the Fund. See 'Buy/Sell spread' under the section, 'Additional explanation of fees and costs' below for further information.
- <sup>2</sup> Management costs are calculated using the 'indirect cost ratio' for the Fund for the financial year ended 30 June 2016. The 'indirect cost ratio' refers to the management costs that were not paid directly out of your account (for example management fees and expenses) but were paid from the Fund's assets over the relevant financial year, expressed as a percentage of the average net asset value of the Fund. It is not a forecast of the amount of the total management costs in the future. Past performance is not a reliable indicator of future performance, and the amount of the management costs may be higher or lower in the future.
- <sup>3</sup> The calculation of the management costs in the example assumes that the additional \$5,000 invested in the Fund occurs at the end of the relevant period and therefore no management fees are payable on the additional investment. Additional fees may apply, as well as the abnormal expense recovery. Refer to 'Additional explanation of fees and costs' below for more information.

**Additional explanation of fees and costs****Management fee**

The management fee generally accrues daily and is payable quarterly. It is deducted from the Fund's assets and is reflected in the Fund's unit price.

**Expenses**

The constitution of the Fund allows all properly incurred expenses to be recovered directly from the Fund. When expenses are paid by the Fund, they will be deducted from the Fund's assets and reflected in the Fund's unit price. Expenses are generally paid when incurred.

**Administrative expenses**

Administrative expenses (which may include internal expenses) incurred in the administration of the Fund including custody fees, registry costs, audit, accounting and tax fees, postage and printing costs will be paid by the Fund. These fees are currently estimated at 0.04% pa of the net asset value of the Fund.

**Abnormal expenses**

Abnormal expenses such as the cost of unitholder meetings, defending legal proceedings and the costs of terminating the Fund will generally be paid by the Fund. Abnormal expenses are not generally incurred during the day-to-day operation of the Fund. Abnormal expenses are in addition to administrative expenses.

**Transaction costs**

Transaction costs incurred in the acquisition or disposal of the assets of the Fund such as brokerage, clearing costs, hedging costs, transaction fees, taxes and stamp duty will generally be paid for by the Fund. Where the acquisition or disposal of assets relates to a subscription or redemption from the Fund, the Fund may recover an estimate of these costs from the investor who is applying for, or redeeming units through the buy/sell spread.

**Buy/Sell spread**

When units are acquired, a buy spread is added to the value of a unit. The buy spread is an amount which reflects the estimated transaction costs associated with acquiring the underlying investments and may take into account the difference between the bid/offer price of investments traded and/or the estimated market impact of the acquisitions on the price of the investments being acquired. When units are redeemed, a sell spread is subtracted from the value of a unit. The sell spread is an amount which reflects the estimated transaction costs of disposing of the underlying investments and may take into account the difference between the bid/offer price of investments traded and/or the estimated market impact of the disposals on the price of the investments being sold. The buy/sell spreads are retained by the Fund and not paid to us or the Investment Manager.

A buy/sell spread seeks to ensure that the estimated transaction costs of the acquisition or redemption are borne by the investor who is applying for or redeeming the units, and not by the existing investors in the Fund. The buy/sell spread may apply even if no transaction to acquire or dispose of assets is required (for example, where there is an application from one investor and a corresponding redemption by another investor).

The buy/sell spread for the Fund, as at the date of this PDS, is +0.25% for applications and -0.25% for redemptions, but may be varied from time to time. In certain circumstances, the buy/sell spread may increase significantly.

Notice will not usually be provided for variations to the buy/sell spread. Current buy/sell spreads that may be applicable to an application or redemption from the Fund are posted on our website at [macquarie.com.au/daily\\_spreads](http://macquarie.com.au/daily_spreads).

We may at our discretion reduce the buy/sell spread in certain circumstances, for example where an investor subscribes using assets (rather than cash) on an application or receives assets (rather than cash) on a redemption.

**Information about fee changes**

We may increase certain fees and expenses without your consent. We will provide at least 30 days notice to you of any proposed increase in fees, charges or expenses (except any changes to the buy/sell spread). We cannot charge more than the constitution of the Fund allows, unless we obtain investors' approval to do so. Under the constitution, the maximum fees (exclusive of the net effect of GST) are:

- a maximum contribution fee of 5% of the investment amount
- a maximum redemption fee of 5% of the redemption amount
- a maximum management fee of 5.5% pa of the value of the assets of the Fund, and
- a maximum performance fee rate of 50% of the cumulative outperformance of the Fund over the Benchmark.

**Additional fees may be paid by you to your financial adviser. You should refer to the statement of advice provided by your adviser for details of those fees.**

You should read the important information about **fees and costs** including additional services and charges before making a decision. Go to Section 6 of the Information Booklet at [macquarie.com.au/pds](http://macquarie.com.au/pds). The material relating to fees and costs may change between the time when you read this statement and the day when you acquire the product.

## 7 How managed investment schemes are taxed

**Investing in a registered managed investment scheme is likely to have tax consequences. The information contained in the following summary is intended to be of a general nature only. It does not constitute tax advice and should not be relied on as such. You are strongly advised to seek independent professional advice on the tax consequences of an investment in the Fund, based on your particular circumstances, before making an investment decision.**

As investors in the Fund will be presently entitled to the entire amount of the income of the Fund (including any capital gains) for each relevant financial year, the Fund should not be liable to Australian income tax under present income tax legislation. Investors in the Fund will be assessed for tax on their share of the net income of the Fund (including any capital gains) for a financial year.

Capital gains or income arising from securities sold to meet a significant redemption can be distributed to the redeeming investor. A significant redemption is one where an investor's redemptions for the financial year are 5% or more of the Fund's net asset value. In these circumstances, the objective would be for remaining investors not to be affected by the capital gains resulting from a disposal of the assets where both the Fund and the redeeming investors make a capital gain in the relevant financial year. The 5% threshold may be varied by us with advance notice to investors.

 You should read the important information about the **additional taxation matters** relating to managed investment schemes before making a decision. Go to Section 7 of the Information Booklet at [macquarie.com.au/pds](http://macquarie.com.au/pds). The material relating to the additional taxation matters relating to managed investment schemes may change between the time when you read this statement and the day when you acquire the product.

## 8 How to apply

You should read this PDS, together with the information contained in the Information Booklet, available at [macquarie.com.au/pds](http://macquarie.com.au/pds).

Direct investors should complete the Application Form that accompanies this PDS. You can send the completed Application Form and required identification documentation to us by mail, facsimile or email. If you fax or email your identification documentation, the original should follow in the mail for our records. Your account may not be opened until your original identification documentation has been received.

### Cooling-off period

If you are a 'retail client' under the Corporations Act, you can terminate your investment in the Fund during the period of 14 days starting on the earlier of the time when you receive confirmation of issue of units in the Fund to you or the end of the fifth Business Day after the units are issued to you. Your refund will be processed as a redemption and the redemption value will be reduced or increased for market movements since your investment. We will also deduct any tax or duty that is paid or payable by the Fund, any reasonable administration or transactions costs incurred as well as the sell spread. As a result, the amount returned to you may be less than your original investment. To exercise your cooling-off rights, please write to Client Service.

### Enquiries and complaints

You may contact your financial adviser or Client Service if you have any enquiries or complaints.

Written complaints can be sent to us at:

#### The Complaints Officer

Macquarie Investment Management Australia Limited  
PO Box R1723  
Royal Exchange NSW 1225 Australia

Our procedures ensure that we consider and provide a response to complaints within 45 days of receipt.

 You should read the important information about **dispute resolution** before making a decision. Go to Section 8 of the Information Booklet at [macquarie.com.au/pds](http://macquarie.com.au/pds). The material relating to dispute resolution may change between the time when you read this statement and the day when you acquire the product.

## 9 Other information

 You should read the important information about **our legal relationship with you** before making a decision. Go to Section 9 of the Information Booklet at [macquarie.com.au/pds](http://macquarie.com.au/pds). The material relating to our legal relationship with you may change between the time when you read this statement and the day when you acquire the product.
